OEM Lighting Sales is pleased to announce our representation of for Outdoor, Industrial LED Drivers and other power electronic products. GE Outdoor Drivers have a design life of > 100,000 hours with overload and short circuit protection and the ability to withstand higher surge events (ANSI C136.2-2015). Most LED Drivers have inherent 10kA/5kA surge protection which avoids the need to wire in a separate surge protection device. The Drivers have an active foldback circuit to protect the entire fixture from excessive temperature events. There is full potting for thermal and moisture protection and meets IP66. Every Driver is production powered for 2 hours to protect against process variation that may occur during other manufacturing testing. GE Current offers control ready drivers as well as DALI/0-10V combo Drivers for DALI commands. GE Outdoor Drivers can be Programmed for output current, constant light output (CLO) and clock dimming.

REFLECT • DIFFUSE • CONTROL

REFLECT

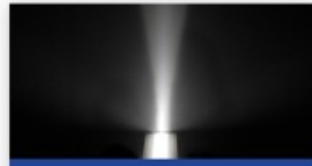

High diffuse white **reflector films** used to improve efficiency and LED distribution in direct-lit, edge-lit and indirect luminaires

DIFFUSE

Diffusion films and rigid sheet used to efficiently diffuse LED images

- Conical
- Elliptical
- Batwing

CONTROL

Micro-structured prismatic film and rigid sheet for glare and beam angle control

- Glare control
- Asymmetric
- Fresnel optics
