New PTB series releasing soon!

ERP is preparing to release the PTB series, a programmable constant current LED driver with Tri-mode (TRIAC, ELV, & 0-10 V) dimming, a competitive cost, and an astonishingly compact form factor. The PTB series measures 2.76" L x 1.57" W x 1.16" H and is a perfectly sized driver for application with strict dimension constraints. Additionally, The PTB series offers four pre-programmed 0-10 V dimming profiles, a custom user-defined 0-10 V dimming profile, and programmable conduction angles to ensure wide 0-10 V, TRIAC, and ELV dimmer compatibility . The series includes 15 W, 30 W models to meet a broad range of customer power needs. ERP drivers are designed in California and built to last with a 5-year limited warranty. Contact your sales representative for more information regarding the PKB series and to procure a sample for testing.
