New Lithonia Lighting® LEM Series Emergency Drivers deliver essential Life Safety functionality for most Class 2 LED luminaire designs.

The LEM04 and LEM08 emergency drivers are effective emergency drivers that deliver up to 4W or 8W initial power to operate 20-50VDC LEDs for the code-required 90 minutes.

The LEM04 and LEM08 are UL 924 Listed for field installation in United States and Canada and are available with metal conduit ("A" option) for external mounting on the luminaire or without metal conduit ("B" option) for integral installation within the channel space.

Lithonia Lighting LEM Series emergency drivers are practical options for meeting basic emergency lighting requirements for most standard fixtures and mounting heights.
