## In-house light measurement is easy with Viso

How much time and money do you spend on external testing ? It is probably much more than you think. The Viso light measurement system is paid back in less than one year. Read more here: [www.visosystems.com](http://www.visosystems.com)

In addition to avoiding expenses for external labs, you get:

- Top speed - measure immediately when you are ready. No shipping costs, no waiting time
- Fast R&D – make incremental fixture changes, and test on the fly
- In-house know-how - build optical competences in your company

VISO systems are much more compact than traditional systems. Moreover, you will not need an integration sphere: The goniometer equipped is fitted with a spectrometer, so you will get all data in one go. IES files, lumen packages, all color and power data, and much more. Viso Software is market leading – powerful and intuitive and simple to use yet packed with features.

Get all data below in one measurement in less than 30 seconds.

- Lumen
- Candela including peak value
- Color temperature
- Integrated spectrum equal to integration sphere
- Color rendering CRI, TM30, CQS
- Beam angle
- Polar light distribution including 3D view
- Lumen per watt
- Power factor
- Custom PDF reporting design you own report layout
- Export to IES, LDT, Excel, CSV
- And more!

Send us a fixture and we will make an online demo measurement with you.

**Custom Wire Overmolding**

- IP ratable
- Connector-to-cable integration
- NEMA configurations
- Proprietary configurations to spec

**Electro-Mechanical Assembly**  
**Custom Manufacturing**  
**Wire Harness Assembly**

- Simple to complex
- Prototypes
- Low to high volumes
- Since 1985

**FLEXTEC**  
**THE WIRING SOURCE**

Let's get started.  
**478-433-6537**  
**customerservice@flex-tec.com**

**www.flex-tec.com**  
 Byromville, GA • Mexico

CSA & UL approved • IPC 620 • Cage Code 1YRM9 • Certified HUBZone  
 SBA Customer • DUNS 147866925 • Multiple NAICS • CCR Trading Partner

We have a full range of equipment capability for electrical wire preparation, electrical wire harness assembly and electrical wire over molding also known as insert vertical injection overmolding. We're fully capable of producing consistently high quality products from simple to complex designs and from low to high volume production.
